

### **Online Safety Tips to Remember:**

- Do not give out personal information.
- You should never meet up with someone that you have only been in touch with online.
- Accepting emails, IM messages, or opening files, pictures, or texts from people you don't know or trust can lead to problems. They may contain viruses or nasty messages.
- Information you find on the internet may not be true, and someone could be lying about who they are.
- Always tell your parent, guardian, or trusted adult if someone or something makes you feel uncomfortable, or if someone is being bullied online.
